ACCESSORIES

SADDLE BAG

The Saddle Bag is an essential storage bag for detachable pedals or a secure place to stash your keys, mobile or wallet. Easy mounting is provided through the DAHON quick fix system and velcro for secure mounting.

Features:

- Bag size: 11 x 20 x 12 cm (approx. 2x6)
- Material: 600D Polyester
- Water resistant
- Reflective elements
- Self-padded side walls

REAR CARRIER BAG

The Rear Carrier Bag benefits from a carrying system and can be securely fastened with hooks and tensioning straps to ensure your belongings stay safely in place. With the help of two zippers the pocket side is detachable to reduce its original size.

Features:

- Extensible side pocket with loop and hook, for side bag measuring 33 x 23 x 5
- 31T padded side walls
- Material: 600D Polyester
- Reflective elements
- Self-padded side walls (approx. 10L)

DOUBLE REAR PANNIER BAG

The Double Rear Pannier Bag was custom designed to fit the frame requirements of a folding bike. This bag consists of two side compartments both with a zipper closure and a connecting bridge with a carry strap to allow you to carry your belongings with you. Perfect for when you're on the go.

Features:

- Small carrier with on-center clamp system
- Connecting bridge and carry strap
- Material: 600 Polyester
- Water resistant
- High quality closing flap
- Bag size: 27 x 7 x 24 cm (approx. 9L)

FRONT BAG

Our Front Bag is a compact, water-resistant vessel designed to carry valuable items that need to remain protected at all times. The Front Bag comes with a detachable shoulder strap so you can keep your valuables with you at all times.

Features:

- Shoulder strap
- Easy mounting with DAHON quick fix system
- Material: 600 Polyester
- Water resistant
- High quality closing flap
- Bag size: 24 x 8 x 26 cm (approx. 4L)

STOW AWAY-SADDLE BAG

To transport your folding bike, use the lightest DAHON carrying bag. This stow away bag consists of a carrying strap and a carry strap to check bag. The stow away bag is made of 600D polyester, with a 20" and 24" folding table. This practical bag has a shoulder strap, a zipper on the top and an drawing of the bottom of the bag.

Features:

- Easy mounting with GIP-Clip on saddle rails
- Material: 600D Polyester
- Water resistant
- Zipper mesh pocket bag in bag cover
- Reflective elements
- Bag size: 20 x 11 x 13 (approx. 2.8L)

FRONT CARGO BASKET

Conveniently carry the sheets while keeping your goods in sight with DAHON's Front Cargo Basket. The basket is made to comfortably fit around a handlebar. The basket bag has a zipper on the top and an drawing of the bottom of the bag.

Features:

- Center of gravity for increased stability
- Secure frame attachment won't affect steering
- Large, wide and durable frame design to carry more

TWO IN ONE VALET TRUSS

Our Valet Truss is specifically made to mount on the front of DAHON bicycles. This unique device uses the chain frame to support your baskets and bags, not the handle bars, keeping the weight of the contents centered and stable. This super strong, high quality aluminum truss is strong enough to carry up to 9 kg (20 lbs).

Features:

- Made with super strong, high grade aluminum
- Mounts to bike frame, not the handlebars
- Keeping weight centered
- Includes a quick release latch for attaching baskets and bags
- Holds up to 9 kg (20 lb)

QUICK COUPLER

The Quick Coupler converts your bike bag or basket into a rubber foot bag or tote. Use with your cargo secure, and then remove material for safe keeping, shipping, or transport. The Quick Coupler is made of reinforced fiber glass and nylon, and will hold all DAHON racks, bags and most types of baskets, quick release lever locks securely in place. Retaining hardware included.

Features:

- Holds DAHON bags, racks and most other aluminum
- Instantly converts from a cargo container to a carrying bag
- Durable, reinforced fiberglass and nylon materials
- Quick-release safety locking system

DAHON FOLDING BIKE CASE

DAHON's Folding Bike Case uses a combination of ABS + PU to create a hard-wearing case that can help you transport your folding bike with ease. The folding travel case is designed with light and flexible materials, and is made of reinforced fiber glass and nylon, and will hold all DAHON racks, bags and most types of baskets, quick release lever locks securely in place. Retaining hardware included.

Product size:

- 20" case: 695-375-780 (mm) full size
- 24" case: 695-375-210 (mm) allowed
- weight: 4.4kg
- 16" case: 695-340-620 (mm) full size
- 18" case: 695-340-240 (mm) allowed
- weight: 3.9 kg

BACK PACK CARRY BAG

The practical bag allows you to carry your DAHON on your back. The backpack folds together like a handlebar making it easy to carry when empty. The Back Pack Carry Bag has removable shoulder and back cushions as well as a chest strap to ensure you stay comfortable when carrying. Inside pockets and padding shoulder straps provide additional comfort.

Features:

- Suitable for 16", 20" and 24" folding bikes
- incl. removable padded shoulder straps and back cushion
- Bag size: 94 x 10.5 x 30 cm (approx. 10 L)
- Inside straps pockets
- Additional carry strap with buckle
- Material: 600 D polyester
- Water resistant
- Protective padding
